

The Federal Communications Commission

Dear The Federal Communications Commission,

I sincerely do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people like me who make only a few long distance calls would pay the same as people or businesses that make many calls. This is unfair!

I truly use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. Please reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Robert Harris
